

P.O.W.E.R Check

After your last ride give your chain a quick spray with chain lube.

Before every ride ensure you have done the following steps.

Petrol.

Check your Fuel and Fuel cap make sure it's not sticky.

Oil.

Check your oil and brake fluid.

Water.

If you have a water cooled bike check the radiator or overflow tank.

Electrics.

Check all lights. Indicators, Brake lights, Head Lights, Horn, Kill Switch and Instrument lights.

Rubber.

Check pressure in tyres. Check front fork seals. Rub hand over front and back tyres checking for nails, screws or sharp metal bits. Also Check Back and Front Brakes.

Final thing to check do you have a phone to contact someone if something goes wrong with the bike.
